

PIPE EQUIPMENT SPECIALISTS LTD

About Us

With headquarters in the UK, TAG-PIPE was founded by Anthony Tagliaferro who started in the manufacture and supply of pipework fabrication machinery, tools and handling equipment in 1985, having previously worked as a welder, fabricator and toolmaker.

Over recent years TAG-PIPE has grown significantly through focusing on the importance of being close to our customers. In 2012 we opened a branch in Europe (Belgium), in 2013 a branch in the USA (Houston), in 2014 a branch in Asia (China), in 2015 a branch in Middle East (Dubai) in 2016 a branch in India (Pune) and most recently in 2017 a branch in Vietnam (Ho Chi Minh City).

Today, with offices and warehousing in 7 countries, on 4 continents, 70 employees and more than 180 partnerships and distributors worldwide, we pride ourselves in consistently offering the highest standard of both product quality and service to all our customers.

We look forward to welcoming you into our global network as a TAG-PIPE partner, distributor or end user customer and remain at your disposal at any time.

Products

TAG-PIPE is extremely proud to be established and recognised as one of the world's leading manufacturers and suppliers of:

- Pipe Beveling Machines
- Pipe Cold Cutting Machines
- Pipe Flame Cutting and Beveling Machines
- Pipe Alignment/Welding Clamps
- Pipe Jack Stands
- Pipe Purging Equipment
- Pipe Tools
- Pipe Stoppers
- Plate Beveling Machines

Mission Statement

"At TAG-PIPE we aim to offer our customers a comprehensive, top quality, competitive and unrivalled range of pipework machinery and tools, this backed with great customer service supported by our 6 branches strategically located on 4 continents and our extensive and continuous expanding global network of partners and distributors."

Aidan Tagliaferro, Managing Director

Industries

Our products are used in both workshop and on-site environments across various Industries worldwide including:

- Oil & Gas
- Pipelines
- General Fabrication
- Offshore Welding
- Ship Building
- Vessel Manufacturing
- Power Generation
- Boiler Industry
- Petrochemical
- Pharmaceutical
- Refineries
- Turbine
- Nuclear
- Heat Exchangers
- Dairy, Food and Beverages and many more...

www.TAG-PIPE.com

Our company policy is one of continuous improvement. Products may change or vary from those illustrated.

Customer Service

We work extremely hard supporting and training our team of employees and network of partners and distributors to ensure that from TAG-PIPE you always receive the:

- Fastest Response Times
- Quickest Delivery Times
- Most Knowledgeable and Accurate Advice
- Committed After Sales Support

Level of Stock

TAG-PIPE carry an unrivalled stock level, meaning no matter how large your order we expect to offer you the fastest delivery time available worldwide.

Price

You will find our pricing to be very competitive. Give us an opportunity to quote your next project and we are confident you will be pleased! For your convenience we offer our products in the three major currencies: US Dollars, Euros and GB Pound.

Research and Development

Technology is always improving. At TAG-PIPE we firmly intend to move with the times and to be the trendsetters in our industry with a dedicated team of designers and technicians devoted to improving our existing products as well as innovating the next generation of pipework machinery and tools.

Production, Assembly and Quality Control

With manufacturing partners in UK, Belgium and Italy, TAG-PIPE are proud to offer the highest quality of components manufactured wholly in Europe. All our machines are assembled in our UK facility and undergo vigorous testing and quality control, which is backed by our products being CE Certified, having Certificates of Conformity, UK Certificate of Origin and our company being ISO9001 accredited.

Demonstrations and Training

We love to show off our products unrivalled performance and are always happy to carry out demonstrations either in our showroom facility in the UK or at your site. In addition we understand the importance of the correct operation of our machinery and tools so also offer training packages again either in our UK training facility or at your site ensuring safe, efficient and accurate operation.

Rental Division

TAG-PIPE operates a Full, Worldwide Hire and Rental Service. With currently more than 300 machines, our hire fleet is constantly expanding. A large investment was made in 2016 with additional machinery as well as a new tailored hire software system to simplify all of your hire needs making us the best stop for all your pipework equipment rental needs.

Please contact our designated Hire Department via any of these means: Tel: +44 (0) 1869 324 144 or E-mail: hire@tag-pipe.com

PIPE ALIGNMENT CLAMPS

Tel: +44 (0)1869 324 144

www.TAG-PIPE.COM

E-mail: sales@tag-pipe.com

- Quick and E-Z to use
- Ultra robust design, ideal for site work
- Stainless steel contact points as standard
- Sliding T-bar Handle for ease of use and secure clamping
- Fine adjustment screws for quick fit-up
- Lightweight for overhead work

Sizes Available

PART NO.	PIPE DIAMETER RANGE (INCH)	PIPE DIAMETER (MM)	CLAMP WEIGHT (KG / LBS)
EZR2	1 - 2.5"	25 - 74mm	1.5kg / 3.5lbs
EZR6	2 - 6"	50 - 170mm	4.0kg / 9.0lbs
EZR12	5 - 12"	127 - 325mm	6.7kg / 15.0lbs

Working On Stainless Steel?

The new E-Z Fit Red Pipe Clamp can be used on stainless steel without any additional accessories due to the stainless steel feet and balls in the wing-nuts, preventing contamination of the pipe.

E-Z Fit Red Typical Applications

WARNING: These E-Z Red clamps must not be used as a lifting device, as this may result in damage or injury

- Quick and E-Z to use
- Forged steel construction for maximum strength
- Combines accuracy with safety
- Instant centering
- Five size range options
- Wing bolts with stainless steel bearings

Optional Extras

Stainless steel covers can be fitted quickly to the clamping feet. This makes all contact points of the clamp stainless, thus eliminating contamination of the pipe.

Sizes Available

E-Z Fit Gold Typical Applications

WARNING: These E-Z Gold clamps must not be used as a lifting device, as this may result in damage or injury

Range: 1 - 72"

Our E-Z Fit Pipe Chain Clamps have been designed to offer the welder/pipe fitter the best of both worlds.

A robust pipe clamp with the strength to align and reform, that is also lightweight and easy to operate.

Traditional methods for aligning heavy wall pipe, such as ratchet cable pullers, lugs and bottle jacks are time consuming and inconsistent in the results they achieve, making them unsuitable for the majority of critical alignment applications.

One clamp can fit up a variety of sizes of pipes, elbows, tees, flanges end caps and most other pipe fittings (using the level and support device supplied).

The heavy duty high rise Jackbars and main block provide the strength to reform the pipe either side of the weld gap to eliminate "Hi-Lo", whilst enabling the welder to weld the entire circumference of the pipe with the clamp in situ.

Our chain and screws are zinc passivated, to combat weld spatter and corrosion. All E-Z Chain Clamps are available with stainless steel contact points and chain to enable the welding of exotic materials with no risk of contamination.

Features and Advantages:

- **Precision Alignment** - The double jackbars, spaced around the outside diameter of the pipe, provide concise alignment and reforming of the internal or external diameters of both pipes within 0.5mm
- **Extremely Tough** - Reforms pipes on both sides of the weld joint to Schedule 40 pipe and aligns any wall schedule of pipe, elbows, tees and other fittings
- **Adaptable** - The Chain Clamp can be used to align, and reform elbows, tees and other fittings that a cage clamp can not manage. One Chain Clamp covers the range of eight (8) cage clamps
- **High Rise Independent Jackbars** - Double jackscrew 'high rise' jackbars have extra clearance enabling easy access with welding torch/rod. Each Jackscrew has independently pivoting feet to cope with uneven surfaces
- **Safe** - Elbows, tees and other fittings can be held safely and securely in place during alignment with the level and support device

E-Z Fit Pipe Chain Clamp Versatility

Some examples of fit-ups with the E-Z Fit Pipe Chain Clamp. Each clamp is supplied with all accessories to carry out any fit-up and includes a steel storage box.

E-Z Fit Pipe Chain Clamps Include:

- Length of chain required for the pipe range
- Double jackscrew jackbars listed for the pipe range
- Main block
- Fine adjustment
- Level and support device
- Jackscrew wrench
- Parts and operating manual
- Metal storage box
- Come fully assembled ready to use

TAG E-Z FIT MINI CHAIN CLAMP

Efficient, quick and easy to use

The new mini chain clamp is ultra light weight, robust and easy to use comes with 4 Jack bars enabling light duty pipe alignment from 0.5 - 8".

PART NO.	PIPE DIAMETER (INCH / MM)	NO. OF JACKBARS	SHIPPING WEIGHT
EZMCC8	0.5 - 8" / 12 - 210mm	4	1.7kg / 3.8lbs

E-Z FIT DOUBLE CHAIN CLAMPS

Ultra heavy duty double chain reforming alignment clamp

Range: 10 - 240"

The E-Z Double Chain Clamp is an extra heavy duty clamp designed for alignment and reforming of pipes and vessels up to 20' (6M) with up to schedule 80 wall thickness. The double chain clamp will align pipes with any wall schedule.

Our specialised triple jackscrew heavy duty jackbars and double chain lock devices can deal with the most difficult of reforming jobs with operational ease.

The extra heavy duty jackbars and double main block provide the strength to accomplish reforming jobs on pipe wall thicknesses that other clamps simply cannot. Models 10 - 36" to 10 - 54" come with level and support device and all other models come with cable hoist.

The E-Z Fit Double Chain Clamps are available as stainless steel models with stainless steel contact points and chain to enable the welding of exotic materials with no risk of contamination. All clamps are supplied in their own durable storage cases.

Clamps can also be supplied with an optional torque wrench to apply the correct tension to the chain (150nm). This allows the exact required tension to be applied to the chain.

Features and Advantages:

- **Precision Alignment** - The double jackbars, spaced around the outside diameter of the pipe, provide accurate alignment and reforming of the internal or external diameters of both pipes within 0.5mm
- **Extremely Tough** - Reforms pipes on both sides of the weld joint to schedule 80, aligns all wall schedules, elbows, tees and other fittings
- **Adaptable** - The Chain Clamp can be used to align, and reform elbow, tees and other fittings that a cage clamp cannot cope with. One Chain Clamp covers the range of up to 100 cage clamps
- **Extra Heavy Duty Independent Jackbars** - Enable the operator to form the pipe to the required shape. Each Jackbar has three (3) independently pivoting Jackscrews to cope with uneven surfaces
- **Versatile** - Elbows, tees and other fittings can be aligned with the level and support device

Heavy duty jackbars for arduous aligning and reforming jobs

E-Z Fit Double Chain Clamp includes:

- Length of chain required for the pipe range
- Extra heavy duty jackbars listed for the pipe range
- Number of Main blocks listed for the pipe range
- Two (2) fine adjustments
- Level and support device (larger clamps supplied with cable hoist)
- Jackscrew wrench
- Operating instructions

Optional:

- Torque wrench
- Carbon or stainless steel spacing screws
- Additional jackbars and Jackscrews
- Additional Chain

SPIDER CLAMP - SERIES 400

Popular Model

This model has two independent expanding clamps, allowing independent alignment of two hollow cylindrical components of different diameters. The bottom expanding clamp is inserted and clamped in the pipe by means of the knob. Then the other part (e.g. a flange) is placed over the top expanding clamp and clamped by means of the hand-bar. This model is specially suited for heavy parts. Locating rails are available in stainless steel.

PART NO.	CLAMPING RANGE (MM)	WEIGHT (KG / LBS)
400-1 / 400-1SS*	54 - 140mm	1.25kg / 3lbs
400-2 / 400-2SS*	85 - 220mm	3.6kg / 8lbs
400-3 / 400-3SS*	120 - 350mm	10.5kg / 23lbs
400-4 / 400-4SS*	180 - 520mm	27kg / 60lbs
400-5 / 400-5SS*	400 - 900mm	39kg / 86lbs

* SS = Stainless Steel

ELBOW SPIDER CLAMP - SERIES 500

Popular Model

This model with two independent clamps is used for clamping flanges of all kinds and similar parts to elbows and pipe-bends of various diameters. The lower expanding clamp has strong gripping feet which insert into the bend and are tightened by means of the knob. The top expanding clamp is tightened by means of the handbar in the flange.

PART NO.	CLAMPING RANGE(MM)	WEIGHT (KG / LBS)
500-1 / 500-1SS*	54 - 115mm	1kg / 3lbs
500-2 / 500-2SS*	85 - 195mm	3.3kg / 7lbs
500-3 / 500-3SS*	120 - 315mm	9.5kg / 21lbs
500-4 / 500-4SS*	180 - 520mm	23.1kg / 51lbs

* SS = Stainless Steel

For quick and accurate alignment of pipes of equal or differing diameters on a common centre line. Automatic diameter compensation. There's no need to make additional adjustments. All parts stay easily accessible for welding.

PART NO.	CLAMPING RANGE (MM)	WEIGHT (KG / LBS)
100-1 / 100-1SS*	10 - 70mm	2.1kg / 5lbs
100-2 / 100-2SS*	40 - 140mm	5.9kg / 13lbs
100-3 / 100-3SS*	75 - 330mm	26kg / 57.5lbs

* SS = Stainless Steel

LINEAR CLAMP - SERIES 200

For quick and accurate alignment and clamping of flanges, nozzles, short pipe sections to pipes and cylindrical tanks. Wedge shaped clamps provide automatic compensation even for parts with greatly differing diameters. Clamps are available in stainless steel.

PART NO.	CLAMPING RANGE (MM)	WEIGHT (KG / LBS)
200-1 / 200-1SS*	15 - 19mm	0.20kg / 0.7lbs
200-2 / 200-2SS*	16 - 20mm	0.20kg / 0.7lbs
200-3 / 200-3SS*	19 - 25mm	0.25kg / 0.9lbs
200-4 / 200-4SS*	24 - 32mm	0.50kg / 1lbs
200-5 / 200-5SS*	31 - 40mm	0.50kg / 1lbs
200-6 / 200-6SS*	38 - 52mm	1.25kg / 3lbs

* SS = Stainless Steel

SPIDER CLAMP - SERIES 302

For clamping pipes of equal diameter or as a clamp with only one expanding clamping part.

PART NO.	CLAMPING RANGE (MM)	WEIGHT (KG / LBS)
302-1 / 302-1SS*	54 - 140mm	1.1kg / 2lbs
302-2 / 302-2SS*	85 - 220mm	2.5kg / 6lbs
302-3 / 302-3SS*	120 - 350mm	6kg / 13lbs
302-4 / 302-4SS*	180 - 520mm	14kg / 31lbs
302-5 / 302-5SS*	400 - 940mm	20kg / 44lbs

* SS = Stainless Steel

Cage Clamps are the cost effective method to quickly align a single size of pipe. There are three versions available; manual, ratchet and hydraulic. These are available in two styles, either "Tack" or "No Tack". The tack type has straight cross bars and is removed from the pipe before final welding. The more popular no tack model has arched cross bars to permit a 90% circumferential weld without removing the clamp.

Manual Cage Clamps Range: 4 - 24"

The TAG Manual Cage Clamps are available in sizes ranging from 4 - 24". The Cage clamp is designed to achieve rapid alignment of two pieces of pipe prior to welding.

- Will not back off while weld is being made
- Simple and easy to use

Ratchet Cage Clamps Range: 20 - 80"

The TAG Ratchet Type External Line-up Clamp is very strong and accurate, but is also lightweight with standard No-tack arched cross bars.

- Precision Acme Threads ensure great strength and ease of operation
- Will not back off while weld is being made
- Mechanism is enclosed to prevent dirt or mud
- Standard 1" ratchet handle fits all sizes

Hydraulic Cage Clamps Range: 20 - 80"

Up to 80" external No-tack type line-up clamps, lines up pipe for weld to enable the maximum weld to be made without moving the clamp, hand toggle or powerful hydraulic for accurate alignment.

- Hydraulic jack capacity 5 - 20 ton.
- Specials upon request

RIM CLAMPS

Ultra heavy duty reforming and alignment clamp

Designed for aligning and reforming pipes with extreme tensile strengths and capable of handling out of round wall thicknesses up to 51mm.

Jackscrews apply pressure on specific high points to precisely reform and align the pipe or shells, ideal for applications that require critical alignment. Thanks to the moveable jackbars that can be rotated for ease of access, welding and grinding can be completed without releasing clamping pressure to prevent cracking of partially completed welds.

Heavy duty oval-shaped frame, latching mechanism, and jackscrews give the Rim Clamp unrivalled re-forming strength and the capability to handle out of round wall thicknesses up to 51mm. All surfaces of the Rim Clamp that contact the pipe are made of stainless steel, eliminating the risk of contamination when working with exotic materials enabling the Rim clamp to be used in nuclear, water and other similar high purity applications. Sizes 14" and larger feature an automatic locking device to minimise the risk of operator injury.

Features and Advantages:

- **Extremely accurate** - fit-up on large diameter pipe, shells or vessels
- **Heavy duty** - handles out-of-round conditions up to 2" (51mm)
- **Easy alignment and reforming** - pressure can be applied to high points of the pipe or vessel to reform it to the required shape
- **Versatile** - the clamp can be used for steel or stainless steel applications

Sizes Available

PART NO.	PIPE DIAMETER RANGE (INCH / MM)	REFORMS PIPE TO SCHEDULE	ALIGNS PIPE TO SCHEDULE	CLAMP WEIGHT (KG / LBS)

PIPE EQUIPMENT SPECIALISTS LTD

PIPE STANDS & ROLLERS

Tel: +44 (0)1869 324 144

www.TAG-PIPE.com

E-mail: sales@tag-pipe.com

TAG Pipe Equipment Specialists manufactures pipe stands that have been designed to give you the highest quality at the best price.

TAG Tri Stands are constructed from box section and are available with a variety of different head styles to suit any application.

Features and Advantages

- 1½" Square box section construction
- 1,585kg / 3,500lbs load capacity
- Choice of fixed leg base or folding leg base
- Folding legs allow for easy storage and transportation
- Comprehensive range of 9 different head styles
- Adjustable in height from 27 - 48" (71 - 122cm)
- Independently load tested
- CE Conformity Certified with CE Mark

TPS300 - Tri Fixed Stand fitted with: TVH300 Standard V-Head

TPS300 - Tri Fixed Stand fitted with: TVH300L Large V-Head

TFS301 - Tri folding stand shown open and closed

Tri Fixed Stand (base only)

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
TPS300	1,585kg / 3,500lbs	7.6kg / 17lbs	1 - 24"

Tri Folding Stand (base only)

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
TFS301	1,585kg / 3,500lbs	7.6kg / 17lbs	1 - 24"

Tri V-Head

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
TVH300	1,585kg / 3,500lbs	3.4kg / 7lbs	Up to 12"

Large V-Head (see page 23 for Head options)

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
TVH300L	1,585kg / 3,500lbs	7.6kg / 17lbs	Up to 24"

Steel Wheel Heads (slip on style)

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE

Pipe Chain Vice Head

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
PCV300	1000kg / 2205lbs	6.5kg / 14.3lbs	0.5 - 6"

Stainless Steel Head (slip on style)

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
* SSH300	1,585kg / 3,500lbs	1.0kg / 2lbs	1 - 12"

The Duo is height adjustable and uses quick change style heads. Designed for large diameter pipe rotation and feeding. With locking brakes on the wheels to secure the load for marking, layout or fit-up.

Now supplied with folding legs as standard for ease of use and transport and ultra safe pin locking design.

Features and Advantages

- Load capacity 2,400kg / 5,290lbs
- Folding legs for ease of transport and storage
- Self centering head adjustment from either side
- Height adjustable 29 - 42.5" (74.5 - 108cm)
- 2 - 48" (51 - 1219 mm) pipe diameter capacity
- Quick height adjustment with additional fine thread for workpiece levelling
- 'Trued' wheels eliminate 'corkscrewing' of pipe during rotation
- Lockable wheels to hold pipe in position
- Safety pins to lock stand at working height
- CE Conformity Certified with CE Mark

The Duo Stand utilises the fine adjustment thread. This allows precise adjustment of the working height and can compensate for uneven surfaces to ensure pipe is level at all times.

The unique safety locking pins allow the Duo Stand to be fixed at the various working heights.

Final adjustment and leveling can then be made with the fine adjustment handle.

NEW
IMPROVED
PIN LOCK
DESIGN

Max 108cm / 42.5"
Min 74.5cm / 29"

TAG DUO STAND OPTIONS

The Quick Change style heads increase the versatility of the duo stand.

The heads can be changed in a matter of seconds, without tools, to adapt to almost any applications.

Roller wheels are available in steel, stainless steel or nylon. Ball transfer heads are available in steel or stainless steel.

Simple Head Changeover

1. Lift quick release tab

2. Slide forward and remove

Various height holes enable the operator to fix the stand at the required working height using the safety locking pins

Self centering adjustable heads from 2 - 48" pipe

Base Unit Only

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)
DPS200	2,400kg / 5,290lbs	19.5kg / 43lbs

Pair Nylon Wheel Heads

* SWH200SS	2,400kg / 5,290lbs	3kg / 6lbs

* Suitable for Stainless Steel

QUATTRO STANDS

Heavy duty pipe stands for large diameter and heavy wall pipe

The Quattro Heavy Duty Pipe Stands are the ideal solution for heavy duty pipe handling, in the workshop or for site applications.

The Large V-Head, heavy duty base and variety of head options make the Quattro the most durable and versatile pipe stand on the market.

The Quattro stand can be used as a simple jack stand, supplied as standard with levelling pads to accommodate uneven working surfaces. Weight load tested to 2,265kg / 5,000lbs per stand.

The Quattro stands can also be supplied with lockable 8" castor wheels so pipes of up to 36" diameter and any length can be moved around a workshop or site, without the need for a crane or forklift.

Features and Advantages

- Load capacity 2,265kg / 5,000lbs
- Variety of head options available
- Optional castor wheels for pipe transportation
- Height adjustable
- Heavy duty box section construction
- CE Conformity Certified with CE Mark

Max 112cm / 44"
Min 82cm / 32"

QVH400 Large V-Head shown with SWH400 steel wheels fitted

Shown with RWK400 roller wheel kit fitted

Max 92cm / 36"
Min 61cm / 24"

Levelling pads supplied as standard

Transport pipe around the site or workshop with ease

Base Unit (complete with levelling pads)

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
QPS400	2,265kg / 5,000lbs	10kg / 22lbs	n/a

Large V-Head

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
QVH400	2,265kg / 5,000lbs	8.5kg / 19lbs	1 - 36"

Steel and Stainless Steel Wheels

These four-wheel kits can be fitted into the QVH400 large V-Head to enable pipe to be rotated. Steel and stainless steel wheels are available to suit all applications.

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
SWH400	1,200kg / 2,645lbs	4kg / 8lbs	1 - 36"
* SWH400/SS	1,200kg / 2,645lbs	4kg / 8lbs	1 - 36"

Ball Transfer Head

Consists of two 1½" roller balls which can be mounted in V-Head slots for a range of up to 36" (915mm) pipe.

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
BTH400	1,200kg / 2,645lbs	2.3kg / 5lbs	1 - 36"
* BTH400/SS	1,200kg / 2,645lbs	2.3kg / 5lbs	1 - 36"

Nylon Wheel

The kit consists of four nylon wheels that can be mounted into the QVH400 Large V-Head, to enable the Quattro Stand to be used with stainless steel without the risk of marking the pipe.

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
* NWH400	450kg / 990lbs	1.8kg / 4lbs	1 - 36"

Stainless Steel Sleeves

When working with stainless steel pipe, the sleeve option instantly converts the Quattro Stand into a speciality tool for stainless steel welding, preventing carbon contamination.

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
* SSS400	2,265kg / 5,000lbs	1kg / 2lbs	1 - 36"

Hold Down Device

The Hold-Down Device uses high tensile strength for gripping pipe onto the large V-Head when either welding or using the Quattro stand for pipe transportation. Chain extension kits available for pipe up to 36" (101cm). Standard upto 18".

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
HDD400	n/a	7kg / 16lbs	1 - 36"

Roller Wheel Kit

Four 8" (20cm) heavy duty wheels make up the Quattro Stand Roller Wheel Kit. The wheels have a quick action brake system.

Weight load capacity dependant on head style

PART NO.	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)	PIPE SIZE
RWK400	1,225kg / 2,700lbs	11kg / 24lbs	n/a

TAG UNO STANDS

Specialist Pipe Stands for low level and tight access

The UNO Stand is a basic single tubed pipe stand, simple to use and easy to set-up. Popular for tight access jobs in power stations, submarines, refinery's etc. A favourite for low level work in all fab shops. Available in 4 standard heights. Optional roller heads from the Tri Stand series (page 19) can also be fitted to the V-Head of the UNO Stand to suit varying applications.

Please see page 19 for all Head options

We can manufacture to any height with 125mm / 5" range

TAG TRI CHAIN VICE STAND

A simple but effective solution to small bore pipe handling

Optimised Base For More Working Area - Benders are located at the rear of the base and three tool hangers are provided

Integrated Ground Lug - Provides a conductive surface to connect the earth cable

Self Hooking for 4" Pipe - No need to use a second hand to engage the chain into the wear plate

Leg Chain - Retains legs even when subjected to rugged use during operation and transport

Rugged Tool Tray - Prolonged stability before requiring a leg adjustment

PART NO.	DESCRIPTION	PIPE SIZE	WEIGHT (KG / LBS)	WORKING HEIGHT (CM / INCH)
TCVS6	Tri Chain Vice Stand	0.5 - 6"	21kg / 46lbs	91cm / 36"
PCV6	Pipe Chain Vice Clamp	0.5 - 6"	5kg / 11lbs	n/a

Stainless Steel Jaws and Chain Kit available

TAG MEGA PIPE STANDS

Heavy duty stand that can withstand the toughest pipe fabrication abuse

The TAG Mega Pipe Stands fit nicely between the more common Pipe Jack and Pipe Stand lines and the much heavier duty Turning Roll products that are available on the market today.

The Mega Pipe Stands safely holds larger diameter heavy wall pipe off the ground at an ergonomic height, while allowing the slight height adjustment for fit ups via the twin 1¾ solid acme rods.

Extra features like four way forklift capabilities or optional v groove wheels allow the durable Mega Pipe Stands to be moved with ease within heavy duty pipe fabrication facilities.

If you have a heavy wall fabrication project up to 60 inches, the Mega Pipe Stands are your answer.

TAG MEGA PIPE STAND 3 TON

PART NO.	DESCRIPTION	LOAD CAPACITY (KG / LBS)	PIPE SIZE	MIN/MAX HEIGHT (CM / INCH)	WEIGHT (KG / LBS)
MPS3000	3 Ton Mega Pipe Stand with Urathane wheels	3000kg / 6600lbs	4 - 48"	86 - 122cm / 38 - 48"	54kg / 118lbs

TAG MEGA PIPE STAND 5 TON

TAG MEGA PIPE BLOCK

PART NO.	DESCRIPTION	LOAD CAPACITY (KG / LBS)	PIPE SIZE	MIN/MAX HEIGHT (CM / INCH)	WEIGHT (KG / LBS)
MPB10000	Mega Pipe Block	10000kg / 22000lbs	2 - 72"	15cm Fixed / 6" Fixed	119kg / 261lbs

TAG HIGH PIPE STAND

Easy and safe for high pipe working applications

The TAG Pipe 6ft folding jack allows a pipe fabricator to hold pipe in a safe position up to 6ft tall.

The folding base design with handle allows easy transport into tight spaces and the bottom T-handle locks the jack open while minimising stand wobble.

The 6 foot jack is ideal in any location where increased height pipe fit ups are necessary but can also be used in normal height conditions when adjusted in a lower height position.

Features and Advantages

- Height adjustment from 39 - 72" (99 - 180cm) tall
- 450kg / 1,000lbs weight capacity
- Increased width of stance increases stability
- Convenient carry handle for transport into and around work sites
- Lock washer can be fastened to base for safety
- Folding design allows easy transport and convenient storage

PART NO.	LOAD CAPACITY (KG / LBS)	PIPE SIZE
HPS600	450kg / 1000lbs	Up to 12"

TAG PIPE CART

The easy way to move and store pieces or bundles of pipe

Features and Advantages

- Transports up to 8m / 24ft lengths
- 2,200lbs / 1000kg capacity
- Carries up to 36" pipe, squares, bundles, and more
- Designed for paved shop floors
- Shipping weight 80kg / 175lbs

PART NO.	DESCRIPTION	LOAD CAPACITY (KG / LBS)	PIPE SIZE
PC1	Pipe Cart	1000kg / 2200lbs	Up to 36"

TAG PIPE BUGGY

The safe and easy way to move pipe around the job site

The Pipe Buggy offers a safe method of handling and moving pipes around the workshop or site easily, avoiding damage to the pipe as a result of it being dragged along the ground. At only 31.8kg / 70lbs it is a light weight yet robust solution to pipe handling problems.

With its innovative handle and ratchet strap it allows the operator to lift the pipe from the floor onto the buggy with minimal effort.

Max Pipe diameter: 12"

Max Pipe length: 6.1m

Max Pipe weight: 450kg / 990lbs

Features and Advantages

- Flat free tyres
- Ratchet hold down strap to secure pipe
- Quick disconnecting handle for easy storage

Lift easily in 3 simple steps

- 1** Secure Buggy to pipe in the upside down position using the strap supplied.

- 2** Use handle for leverage to flip Buggy & pipe.

- 3** Reposition handle to walk with pipe.

PART NO.	DESCRIPTION	HEIGHT		WIDTH		WIDTH BETWEEN WHEELS		LENGTH		WEIGHT

PB1	Pipe Buggy	21	53	28	71	16	41	28	71	31.8	70

TAG PIPE DOLLY

The TAG Biggy Buggy

TAG Pipe's Pipe Dolly is used in many field operations allowing the transportation of pipe without the need for a gas or electric powered lift.

Features and Advantages

- Transports pipe up to 24ft
- 2,200lbs / 1000kg capacity
- Carries up to 20" pipe, fittings, boxes, and more
- Sold with flat free tyres as standard
- Shipping weight 80kg / 175lbs with some assembly required

PART NO.	LOAD CAPACITY (KG / LBS)	PIPE SIZE
PD1	1000kg / 2200lbs	20" / 500mm

TAG PIPE CRADLES & SLINGS

TAG Pipe Cradles and Slings are an effective way to move pipe, specifically designed for pipeline installation projects. TAG currently offers cradles from 2 - 24" and all are equipped with 4 inch urethane "round cut" wheels with sealed anti-friction bearings. All spreader bar designs are third party tested and comply with industry standards. These models are equipped with 5/8 wire rope and all rope is swaged and certified at a wire rope rigging company partnered with TAG.

Features and Advantages

- Durable 90a urethane coating designed for multiple uses
- Sealed anti-friction bearings
- Measures 4" tread width x 4.5" diameter
- Designed for use with 5/8 wire rope
- Machined hub for smooth wheel rotation

PART NO.	DESCRIPTION	LOAD CAPACITY (KG / LBS)
T2001	Roller Sling 2 - 8"	1,300kg / 3,000lbs
T2002	2 Strand Roller Cradle 6 - 12"	7,710kg / 17,000lbs
T2003	2 Strand Roller Cradle 12 - 24"	7,710kg / 17,000lbs
T2004	4 Strand Roller Cradle 12 - 24"	12,700kg / 28,000lbs

TAG ROLLER STANDS

Light duty low level roller stands for pipe feeding

Features and Advantages

- Extremely easy pipe feeding
- Free standing or In-trench options
- Differing trench widths accommodated
- Multi positional
- Rubber coated rollers minimise pipe damage
- Three sizes available to suit pipes from 63 - 1200mm (2 - 48")

PRS3

PRS1

PART NO.	PIPE DIAMETER RANGE (MM / INCH)	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)

PRT1 - Pipe Roller for trenches

TAG ROLLER STANDS

Floor or Bench mountable pipe trestles

These heavy duty stands are designed to be either floor or bench mounted. Available with 4 head adjustable styles to suit pipes from 4 - 48".

PART NO.	HEAD STYLE	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)
RPS500	Base unit only	2,400kg / 5,290lbs	5.8kg / 13lbs
SWH500	Pair steel wheel heads	2,400kg / 5,290lbs	3.5kg / 8lbs
* SWH500SS	Pair stainless steel wheel heads	2,400kg / 5,290lbs	3.5kg / 8lbs
* NWH500	Pair nylon wheel heads	450kg / 990lbs	2.2kg / 5lbs
BTH500	Pair ball transfer heads	1,450kg / 3,197lbs	3.5kg / 8lbs
* BTH500SS	Pair stainless steel ball transfer heads	1,450kg / 3,197lbs	3.5kg / 8lbs
S/FTR500	Pair steel feed through roller	2,400kg / 5,290lbs	3.5kg / 8lbs
* SS/FTR500	Pair stainless steel feed through roller	2,400kg / 5,290lbs	3.5kg / 8lbs
* N/FTR500	Pair nylon feed through roller head	450kg / 990lbs	3.0kg / 7lbs

* Suitable for Stainless Steel

TAG QUICK CHANGE ROLLERS

Rapid, self centering pipe trestles

Self Centering heads for rapid adjustment to suit pipe diameter

All heads are 'Quick Change' style
Fully adjustable heads from 1 - 48" pipe. With brakes to lock loads for fit-up

PART NO.	HEAD STYLE	LOAD CAPACITY (KG / LBS)	WEIGHT (KG / LBS)
QCR501	Base unit only	2,400kg / 5,290lbs	5.9kg / 13lbs
SWH200	Pair steel wheel heads	2,400kg / 5,290lbs	3.8kg / 8lbs
* SWH200SS	Pair stainless steel wheel heads	2,400kg / 5,290lbs	3.8kg / 8lbs
* NWH200	Pair nylon wheel heads	450kg / 990lbs	2.2kg / 5lbs
BTH200	Pair ball transfer heads	1,450kg / 3,197lbs	3kg / 7lbs
* BTH200SS	Pair stainless steel ball transfer heads	1,450kg / 3,197lbs	3kg / 7lbs

* Suitable for Stainless Steel

TAG PIPE RACK ROLLERS

Heavy Duty Beam Clamp Rigging Rollers

TAG Pipe Rack Rollers are used for a variety of Industries and applications, typically for installation of pipes into racks at Refineries, Power Stations and other Industrial Plants.

All the TAG Pipe Rack Rollers are designed to be lightweight, with I Beam clamps for quick installation and various roller head options so that all sizes and weights of pipe can be easily, safely and efficiently installed.

Features & Advantages

- Six configurations from 1 - 10 tons capacity
- Three sizes for 2" - 60" pipe diameters
- Urethane wheels with sealed bearings
- Easy to replace wheels, bolt off and on in seconds
- Comes ready to use on Stainless Steel
- Convenient and safe carry handles on all models
- Safety Leash included with all models

Roller Maintains at Center of I Beam

TAG Pipe Launchers are used for a variety of Industries and applications, typically for installation of pipes into Pipe Lines, Trenches, Racks at Refineries, Power Stations and other Industrial Plants.

Features & Advantages

- Six configurations from 1 - 10 tons capacity
- Three sizes for 2" - 60" pipe diameters
- Urethane wheels with sealed bearings
- Easy to replace wheels, bolt off and on in seconds
- Comes ready to use on Stainless Steel
- Convenient and safe carry handles on all models

1 TON PIPE ROTATOR

Speed adjustable, pedal operated, floor/bench rotator

Our 1 ton rotator set (1 drive unit + 1 idler) with foot pedal control and fine speed adjustment, is proving to be most popular in fabrication workshops across the globe!

- Additional idler units available to accommodate longer pipe lengths
- Larger & heavier duty units also available

PIPE EQUIPMENT SPECIALISTS LTD

WHY PURGE?

When welding stainless steel, titanium and other corrosion resistant materials, the perfect environment for welding is paramount to maintaining the corrosion resistant properties. During the welding process, the weld seam is subjected to heat and air which causes oxidation, if the correct processes are not adhered to. For the best results, oxidation must be prevented. The quality of the exotic corrosion resistant material welding is dependent on the correct purging methods to minimise or eliminate oxidation.

Weld Quality

The effective welding of stainless steel, titanium and other exotic materials for the nuclear, petrochemical, pharmaceutical, semi-conductor, aerospace and food industries requires the proper tools to create a perfect weld environment. Purging equipment and its use has a major impact on preventing oxidation and improving final weld quality. The basic principles of purging can be seen below. TAG supply a comprehensive range of systems to create the correct welding environment, whatever the application.

Principles of Purging

TAG PURGE BAG SYSTEM

Sizes: 2 - 24" (50 - 610mm)

Double Inflatable Pipe Weld Purging Systems

Used for 90% of the traditional pipe weld purging applications to provide bright, shiny, oxide free weld roots. The TAG Pipe Purge System are quick and easy to use providing a very rapid weld purge. High quality materials are used in the manufacture of these systems guaranteeing perfect oxide-free weld roots in very little time.

4" Purge Bag System

Luminous strip allows the operator to locate the centre of the bag system to the weld gap with ease

The Gas Release Valve is pre-set and sealed, so requires no adjustment

Due to the design of these systems, the volume of gas used to purge is minimised, resulting in significant savings in both time and the quantity of inert gas used. Return on investment can be achieved in as little as just one or two welds. These robust systems can be used over and over again paying for themselves in very little time.

Features and Advantages

- TAG's Inflatable Pipe Purging Systems dramatically reduce purging times leading to significant savings in labour costs
- **Typical purge times for 4" pipe = 1½ mins; 8" pipe = 4 mins; 12" pipe = 8 mins**
- Ready to use, connects to a dedicated and regulated gas supply. Choose any flow rate up to 20l a min. Through the pre-set purge valve
- Gas pressure control ensures an even positive root bead with no notching
- Quick and easy to install simplifying the process of inert gas purging
- Heat resistant up to 70°C continuously
- Use less inert gas. The volume of purge gas used is less than 2% of that required for a conventional purge

How it works

The Purge Bag Systems in the range manufactured by TAG are designed around the principle of using 2 dams to create a seal either side of the weld, just far enough away from the weld not to be effected by heat but close enough to the joint to provide the fastest weld purge time. These dams are connected by an armoured spinal tube.

Once ready to start purging, the system is inserted into the bore of the pipe using the luminous strip to centre the system to the weld gap.

When the gas flow is started, the dams inflate and, upon reaching the pre-set pressure, the valve releases the gas gently into the weld chamber, to purge the interspace without turbulence. The Oxygen is removed from the weld chamber through the integral exhaust tubes in the bags. Used in conjunction with TAG's Oxygen Monitors to indicate when the required low level of oxygen has been reached, welding can then commence, with the inert gas enabling the welder to produce an even oxidation free penetration weld bead. Afterwards, the dams are deflated simply by disconnecting the purge gas feed and the system easily withdrawn. The design of these systems means that only one gas connection is required for both dam inflation and weld purging.

RAPID PURGE™ SYSTEM

Sizes: 8 - 80" (190 - 2044mm)

Purge larger diameter pipes faster than ever!

Used for stainless, duplex, chrome steels, titanium, nickel and other alloy materials, the TAG Pipe Purge Bag System™ systems enable high speed welding of larger diameter pipe joints that have to be purged.

Designed to enable the user to produce high quality, reliable and repeatable welding of stainless steel tube and pipe joints to ensure a very fast weld purge time and a very high quality weld root, free from oxidation and discolouration.

A 36" diameter pipe will purge to below 0.1% oxygen in less than 10 minutes and all smaller pipes correspondingly faster.

Dramatic savings of time, gas and money can be made by using these systems.

Due to the quality of the materials used, the Rapid Purge™ systems can be used over and over again further reducing manufacturing costs.

As with all of the TAG Pipe Purge Bag System inflatable purging systems, the Rapid Purge™ come with pre-set valves, so are ready to use 'straight out of the box'.

Rapid Purge™ has been developed specifically to enable high speed purging for any pipe welding application.

Features and Advantages

- **Typical purge times of less than 10 minutes!!!**
- The unique "thru-bore" design of the central sleeve minimises the area to be purged, dramatically reducing the volume of gas required
- Friction free coatings allow easy movement through pipes from one joint to another, even around bends and elbows
- Ready to use, connects to a dedicated and regulated gas supply. Choose any flow rate up to 80l/min. through the twin pre-set purge valve
- A central (glow in the dark) strip allows fast and accurate alignment of the system to the centre-point of the weld area
- The inflatable dams and imbelical hose are covered with a heat resistant material and insulated accordingly for use at temperatures up to 250°C

How it works

The Rapid Purge™ Inflation Pipe Purging Systems for pipe and vessel purging comprises a tandem inflatable dam system connected by an umbilical hose and collar to reduce the volume being purged.

A gas exhaust valve is installed between the primary and secondary dam, along with an auxiliary argon purge line.

Each Rapid Purge™ System is covered with heat protective material, so that the higher temperatures closer to the weld do not damage the system.

The robust design of the Rapid Purge™ Inflation Pipe Weld Purging Systems allows for many years of repeatable trouble free use.

HEAT RESISTANT PURGING SYSTEMS

Sizes: 3 - 80" (63 - 2044mm)

Systems for the fast Purging of High Temperature Pipework

The TAG Pipe Purge Bag and Rapid Purge Systems are both available as heat resistant versions.

Designed for use when high temperatures will be encountered during the process of pipe welding; such as pre-heated pipework, and pipes where very high temperatures are required for welding.

These versions of our inflatable Pipe purging systems are heat resistant up to 350°C (572°F) for up to 24 hours, or up to 500°C for short periods of time, as with the standard systems, the heat resistant systems are available for all pipe diameters from 3 - 80" (75 - 2035mm).

Mirroring the features of the standard range of inflatable purging systems, the heat resistant range comes with a central band for rapid centering of the system to the weld root for the fastest set up times.

The welder can position these systems prior to pre-heating and leave them in place throughout the pre-heating, welding and post-heat treatment cycles, allowing the weld to be purged continuously for up to 24 hours if necessary.

Heat Resistant Purge Bags

e.g. 7" Pipe will purge in less than 4 minutes!

Features and Advantages

- Heat resistant up to 350°C (572°F) for up to 24 hours, or up to 500°C for short periods
- Available for all pipe diameters from 3 to 80" (63 to 2044mm)
- Designed to be flexible, for ease of insertion, use and withdrawal from pipes, bends, elbows etc. Suitable for 24 hour cycles including pre-heat, welding and post-weld heat treatment
- A central strip allows fast and accurate alignment of the system to the centre-point of the weld area
- Manufactured to Nuclear Quality Standards with nuclear approved materials, these systems guarantee bright, shiny, coke and oxide-free welds
- Designed and manufactured specifically for the power industry where high strength chrome alloy steels are more frequently used
- Ready to use, connects to a dedicated and regulated gas supply. Choose any flow rate (Purge Bags - up to 20l/min/Rapid Purge up to 80l/min) through the twin pre-set purge valve

Heat Resistant Rapid Purge

e.g. 36" Pipe will purge in less than 10 minutes!

How it works

Both the Heat Resistant TAG Pipe Purge System and the Heat Resistant Rapid Purge™ System work identically to the standard systems, but are made using a purposely designed Nomex and Kevlar mix material to withstand the temperatures typically encountered when welding exotic materials.

Purge pipes fast with minimal gas usage

TAG also manufactures The Silicone Double Seal purging system that has been designed to further reduce both inert gas use and purging time. These systems, use silicon discs to form an air tight seal, reducing purge times, and gas usage for maximum efficiency.

There are 2 styles of silicon double seal systems available:

- The Gas Finger system is designed for small pipes and tubes from 16 - 38mm i/d
- The Double Seal systems are made for pipes from ¾" - 12" (16 - 320mm)

Features and Advantages

- Typical purge times of less than 2 minutes (e.g. an 8" Pipe will purge to below 0.01% Oxygen in less than 2 minutes)
- High quality silicon sealing disks that prevent them tilting or falling over inside the pipe
- Guaranteed gas tight seal
- UV and temperature resistant up to 330°C continuously or 450°C for short periods
- Suitable for purging pipes, elbows and fittings
- The silicon seal units can be separated and used as a gas finger and pipe stopper respectively

Single Gas Finger for smaller pipe and tubes

Show with flexible hose connection for purging elbows and fittings.

Available as a kit for 16 - 165mm (DSK16-165)

How it works

The gas inlet and outlet are provided with twin sealing discs separated by a flexible, rigid or a spring-type tube. The design also guarantees that at least one disc will always remain tight to the pipe wall creating a 100% seal. The discs are UV and temperature-resistant up to 330°C for up to one hour. The gas is diffused into the chamber via the built in sintered diffuser and exits through the exhaust holes in the secondary twin disc unit.

This process of gas diffusion provides an even flow of gas and prevents any gas turbulence behind the weld, thereby minimising the risk of oxygen in the welding chamber while, at the same time, achieving an extremely short purge time. These extremely short purge times result in valuable cost savings in gas and time.

Besides the very short purging time, the Silicon Seal System also offers the possibility to cover various nominal pipe diameters by one pair of baffles enabling highly economic use of the device.

The double seal system can be purchased individually or in kit form for a range of pipe diameters.

Large diameter silicon seal purging systems

The Gas Cylinder system has been designed to further reduce gas usage on larger diameter pipes by localising the purge area to the weld root.

The Gas Cylinders are available for pipes from 200 to 705mm diameter. These tools use two heat-resistant sealing lips to form the seal capable of coping with 300°C for up to one hour. Due to their design, these cylinders have extremely short purge times of 1½ - 2½ minutes for all dimensions.

The Gas cylinders are designed with pull-through balls to enable the unit to be easily retrieved out of a straight section of pipe, or a pipe with a series of bends or elbows.

The purge area is isolated, so there is no need to purge the entire length of pipe to be welded, thereby minimizing gas usage.

Features and Advantages

- Minimal gas usage, the purge area is localised to the weld root
- Typical purge times of 1½ to 2½ mins
- Strong and robust
- Lightweight aluminium construction

Sizing and Specification

PART NO.	RANGE (MM)
PC-1	350 - 380mm i/d
PC-2	400 - 430mm i/d
PC-3	440 - 470mm i/d
PC-4	490 - 520mm i/d
PC-5	590 - 620mm i/d

HANDY PURGE 100 SELF CALIBRATING WELD PURGE MONITOR

Measures oxygen levels down to 0.01% (100ppm)

NEW
Now Self
Calibrating

The entry level, welders' toolbox monitor

Inert gas welding requires the exclusion of oxygen from the weld zone during the welding process. Prior to the welding process, the residual oxygen concentration must be reduced to a required minimum. The Handy Purge is specifically designed to indicate oxygen concentration up to 0.01% and to exactly measure oxygen concentration up to 0.1%. Within this range, it is absolutely safe to weld and produce an oxygen-free weld seam (exceptions include special metals such as titanium, zirconium, etc.).

The Handy Purge can be used both for continuous monitoring during the welding process and for taking samples. Routine inspections for quality control are extremely simplified using this device.

The analyser works with all purge systems and argon welding systems. It is small, easy to handle and has a rugged enclosure.

Replacement sensors and spares available from stock

Features and Advantages

- Self calibrating
- Minimum waiting time. The device tells you exactly when the residual oxygen concentration of a purge gas is low enough to start welding. You need no longer rely on rough estimations. This saves both time and gas
- Reduced purge gas consumption. Exact monitoring of the residual oxygen avoids unnecessary purge gas consumption and allows you to produce oxygen-free weld seams
- Top-quality weld seams
- Top quality is guaranteed, as too early welding and hence porous, coloured or even charred weld seams can be avoided
- Duplex / Stainless steel. The Handy Purge Weld Purge Monitor can be used for all stainless steel, duplex and certain titanium welding applications
- Eliminates guess work

How it works

The TAG Handy Purge™ Weld Purge Monitor comes complete and ready to use straight out of the box. It is the most economical user friendly monitor in the market accurately measuring the Oxygen levels in the purged weld areas, to let the welder know when is the correct time to start welding. This reduces waiting time and gas consumption and ensures perfect oxide free welds.

For continuous monitoring during the welding process connect one end of the rubber hose to the sensor adapter and leave the other end outside the purging area to let the residual oxygen flow away from the welding area.

For taking samples connect the stainless steel probe to the sensor adapter. The probe then measures the residual oxygen concentration in the purging/welding area. Also connect the vacuum hand pump to the sensor adapter and squeeze it a couple of times to let a sample of the gas flow to the sensor.

The device's LCD is 13 mm high, which is big enough to identify the displayed values easily also from a distance of a few meters. As soon as the residual oxygen concentration is down to the required minimum, you may start with the welding process.

TECHNICAL SPECIFICATIONS

Part No.	HP100SC
Measuring range	0.01 % - 20.9 % Oxygen (O ₂) (100 ppm - 209000 ppm)
Accuracy	at 20% ± 0.2% at 2% ± 0.02%
Dimensions	155 x 81 x 38mm
Power source	Battery Type PP3 9V
Display	LCD (Liquid Crystal Display)
Weight	210 g
DIMENSIONS AND WEIGHT FOR SHIPMENT	
Dimensions	310 x 260 x 80mm
Weight	870g

The kit consists of:

- Handy Purge Weld Purge Monitor
- 1m hose with flow adapter
- Stainless steel probe
- Vacuum hand pump
- Plastic Carry Case
- Instructions
- Calibration Certificate

HANDY PURGE PRO 5 WELD PURGE MONITOR

*The most accurate hand-held digital oxygen monitor.
Measures oxygen levels down to 0.0005% (5ppm)*

For applications where minimal oxidation is critical

The Handy Purge Pro 5 is the ultimate hand-held Oxygen monitor, measuring the level of oxygen in the designated atmosphere down to 5ppm (parts per million)!!! The new Handy Purge Pro 5 Weld Purge Monitor is essential for reading oxygen levels for titanium welding.

The interface option enables the Handy Purge Pro 5 to be connected (via a cable or Bluetooth dongle) to a PC & printer to record the readings. A rechargeable battery pack and multi range power plug are standard features of the Handy Purge Pro 5, and its light weight and ergonomic shape make it the ideal portable instrument for all orbital welding applications.

The unit incorporates an internal pump and is designed for measuring rest oxygen in inert gases such as argon. This unit can be used up to 4 hours before recharging is necessary.

Key Features

- Measures oxygen levels down to 5ppm (parts per million)
- Rechargeable batteries, standby life approx. 4hrs
- Temperature regulated zirconium cell (maintenance free)
- Graphic display screen changes colour relative to process and function
- Built-in recognition for 110V - 240V power sources
- Portable for remote and difficult access sites using rechargeable batteries (supplied)
- Integrated programmable sound function
- Multi language: English, French, German
- Low permeability measuring hose for accurate measurements
- Data logging of up to 250 entries - Connects via RS 232 interface or Bluetooth

Colour changing display for quick reference to monitor status

TECHNICAL DATA	
Part No.	HPP5
Measuring Range	5 - 999ppm
Dimensions	290 mm x 130 mm x 60 mm (L x W x H)
Weight	0.8kg
Supply Voltage	7 VDC, 2850 mAh rechargeable batteries

Supplied in a durable carry case

PRO PURGE 1 WELD PURGE MONITOR

Measures oxygen levels down to 0.00005% (0.5ppm)

The top of the range portable, digital oxygen monitor

- Accuracy to 0.5 ppm
- Temperature regulated maintenance free zirconium cell
- Graphic display (blue & white)
- Built-in recognition for 110v - 240v power sources
- Internal battery power for up to 90min
- Integrated programmable sound function
- Date and time function for data logging
- Easy to use software
- Low permeability measure hose (FPM) for accurate measurements
- Connects via RS 232 interface, Bluetooth, CAN-Bus, AUX (AMI)
- Can be calibrated to ambient oxygen
- Software updateable
- Multi language: English, French, German, Dutch, Czech, Danish
- Data logging up to 250 entries internally or externally on a PC

The Pro Purge 1 Weld Purge Monitor is the ideal tool for many welding applications where critical weld standards are required.

Used for Production of Semi-conductors, Nuclear, Aerospace, Pharmaceutical, Energy, Dairy, Brewery and Food processing where strict welding guide lines to eliminate weld-quality issues associated with atmosphere contaminated welds are required.

The Pro Purge 1 Weld Purge Monitor enables Welders and Welding Engineers on site or in the workshop to precisely monitor rest oxygen levels to the point where precision welding can take place, resulting in “perfect conditions” for consistent high-quality repeatable welds.

The Pro Purge 1 Weld Purge Monitor contains a stabilised zirconium oxide cell with a regulated heater to maintain a cell temperature of 750°C which enables it to accurately measure levels from 206400 ppm down to as low as 0.5 ppm.

The zirconium oxide ceramic sensor in the Pro Purge 1 provides very accurate readings, with a deviation of less than 5% in the 1 to 10 ppm range. This means that its resolution is ½ a part per million (0.5ppm).

The Pro Purge 1 Weld Purge Monitor can be unplugged for up to one hour, before the internal battery must be recharged. Making it ideal for testing weld joints in the shop, or in the field.

Connected via a Bluetooth Dongle with a range of up to 100m to a mobile phone.

Via the phone all relevant data including rest oxygen level, sensor temperature will be displayed. Using simple commands the PRO PURGE 1 can be operated remotely

TECHNICAL DATA	
Part No	PP1
Measuring Range	0.5 - 206,400ppm
Dimensions	220 x 165 x 85cm
Weight	3.3kg
Supply Voltage	110V/240V

Connecting a printer via the RS232 interface. Capable of readout documentation (per second) that can be logged via a printer

TRAILING SHIELDS

Supplimentary gas shielding for exotic & reactive metals

Aluminium Trailing Shields

Trailing Shields enable the welder to weld faster, saving time and money allows the production of bright shiny welds. Suitable for welding all types of exotic materials including titanium, nickel and cobalt alloys, stainless and duplex steels and other reactive metals.

Trailing Shields reduce gas consumption due to the gas being isolated to the weld area only and save wasted time, effort and expense by avoiding rejected welds due to oxidation.

Flat models for sheet or plate work are available as well as profiled models for the welding of both internal and external pipes, vessels and tanks. The gas is diffused via a perforated plate.

PART NO.	DESCRIPTION
ATS1	Trailing Shield 1"
ATS1.5	Trailing Shield 1¼" — 1½"
ATS2	Trailing Shield 2"
ATS3	Trailing Shield 3"
ATS4	Trailing Shield 4"
ATS6	Trailing Shield 6"
ATS8	Trailing Shield 8"
ATS10	Trailing Shield 10"
ATS14	Trailing Shield 12—14"
ATS16	Trailing Shield 16"
ATS18	Trailing Shield 18"
ATS22	Trailing Shield 20"—22"
ATS28	Trailing Shield 24"—28"
ATSS	Trailing Shield Straight

Stainless Steel Trailing Shields

These shields are made from Stainless Steel and utilise a stainless steel sinter-metal gas diffuser. The advantage of the Stainless Steel Shields is they can be used for more than one pipe size, making them more versatile than other simpler systems available.

PART NO.	DESCRIPTION
SSTS3/8	Trailing Shield 3/8"
SSTS0.5	Trailing Shield ½"
SSTS0.75	Trailing Shield ¾"
SSTS1	Trailing Shield 1"
SSTS1.5	Trailing Shield 1¼" — 1½"
SSTS2	Trailing Shield 2"
SSTS3	Trailing Shield 2½" — 3"
SSTS4	Trailing Shield 3½" — 4"
SSTS8	Trailing Shield 5" — 8"
SSTS16	Trailing Shield 8" — 16"
SSTS	Trailing Shield Straight
SSTSI	Trailing Shield 90° Internal
SSTSO	Trailing Shield 90° Outside

PIPE EQUIPMENT SPECIALISTS LTD

PIPE STOPPERS

Expandable test plugs for purging and general pipe blocking

Pipe stoppers, or drain plugs as they are sometimes known, are used to temporarily seal the end of a pipe or opening for many different testing applications. Pipe stoppers are mainly used to seal off from water, gases and foreign objects in newly laid pipes, or pipework systems that are under repair.

TAG Pipe Purge System range of Pipe stoppers are available in a number of different styles to suit many applications for pipe sizes from ½ - 72". Special Pipe stoppers are also available for pressure testing.

How it works

A central spindle/shaft on which two plates are fitted with a natural rubber tyre (ring) between them, a wing nut on the shaft moving the two plates together compressing the tyre and making the seal in the pipe. These stoppers can also be supplied with a hollow shaft version for screwing on standard hose connections or for using fixed or free nipple caps.

Expandable Pipe Stoppers are available in three different types.

Nylon Plugs

Nylon plugs are the standard 'Drain Plugs' for testing leak tightness of foul water lines at the time of installation.

Furthermore, the range of sizes make these plugs ideal for a number of other applications in the water and gas industries as well as applications in all other industries where pipes are used or where there are holes to be blocked.

Aluminium Plugs

To complement the range of nylon expanding plugs, we offer all sizes of aluminium plugs.

These are provided in sizes from 1.5" upwards and are suitable for more arduous duties such as immersion in chemicals and/or higher temperatures.

Steel Plugs

TAG Pipe Purge System also manufacture a range of Steel plugs from 1.5 - 72" in diameter.

These plugs are typically suitable for more arduous duties such as long immersion in water and use at higher temperatures or for contact with acidic or alkaline environments for which the Nylon and Aluminium plugs may be unsuitable.

All plugs conform to British Standards BS8005 for low pressure testing and sealing of pipes.

INFLATABLE PIPE STOPPERS

Sizes: 2 - 80" (45 - 2040mm)

Single inflatable dams for blocking and testing

TAG offers a range of shapes and sizes of inflatable stoppers, suitable for all applications. Made from a natural rubber bladder covered in waterproof polyurethane coated nylon to prevent friction and static electricity build up.

There are six different types available:

- **Cylindrical** - These are generally used for blocking pipes where access is restricted
- **Spherical** - These stoppers have less contact area than cylindrical stoppers, and are most suited to applications where access is further limited. Due to its shape the spherical inflatable stopper can be used at any angle
- **Square / Rectangular** - These stoppers have a variety of applications, including in air conditioning ducting and venting.
- **Doughnut** - These stoppers require minimal space and are perfectly suited to larger diameter pipes as there is less inflation required
- **Sausage** - The design of this type gives more contact area between the stopper and the pipe wall enabling these stoppers to hold back more pressure
- **Heat Resistant** - These stoppers are made from a specially designed kevlar and nomex mix material to withstand temperatures up to 500°C for applications involving higher temperatures such as pre heating

Each inflatable stopper comes with an inflation hose fitted with a schraeder valve enabling inflation with a standard airline, bicycle or foot pump.

12"

16"

Heat Resistant Stopper

Doughnut Stoppers

Cylindrical Stoppers

TAG Pipe Purge System inflatable stoppers are supplied as standard with no through tube. Through tubes can be supplied when the stoppers are required for weld purging applications.

When deflated, the inflatable stoppers can be inserted and withdrawn with ease.

No more tangled earth leads

Features and Advantages

- Attaches and detaches in seconds
- Makes up earth leads three ways - lug, clamp on and bare cable

A simple yet effective device eliminates earth lead twisting, tangling and unnecessary wear.

Provides a stable earth for circumferential welding of pipes and fittings and eliminates weld pinholes caused by poor earthing.

Anti-arc bearings take loads of up to 400 amps.

PART NO.	DESCRIPTION	WEIGHT	
REC1	Rotary Earth Clamp	1.8kg	4.0lbs

TAG WRAP-A-ROUND PIPE WRAPS

Easy Pipe Marking

Economical tool for marking straight lines around pipe, or for use of a straight edge. Made out of flexible gasket material, with good resistance to heat and cold.

Available in two colours, designating material type and service temperature. Gray material is used high temperature applications up to 550°F asbestos free wrap-a-rounds in 3.88" and 5.00" feature a metric scale and pitch chart.

All sizes are printed with a scale in inches, pitch chart, tangent chart and other useful markings. Extra small and special order sizes are unmarked.

PART NO.	DIMENSIONS WIDTH (INCH) / LENGTH (FT)	PIPE SIZE (INCH)
TW3	3.88" / 4ft	3 - 6"
TW4	3.88" / 6ft	3 - 10"
TW5	5.00" / 7ft	4 - 12"
TW6	5.00" / 9ft	6 - 16"
TW3PF	3.88" / ft length desired (priced per ft)	3" - Any
TW5PF	5.00" / ft length desired (priced per ft)	4" - Any
Special length over 10ft up to 375ft		

Examples

PIPE SIZE (INCH)	PIPE WRAP SIZE (FT)
18"	11ft
21"	13ft
24"	14ft
30"	18ft
36"	21ft
48"	28ft

TAG FLANGE PINS

Flange Pins are an economical and efficient way to align flanges. For use in ½ - 1½" holes. Quick release design for fast flange alignment. Durable zinc coating finish increases tool life. For use in flange holes up to 1½" deep. Knurled handles increase grip. Lightweight 1.60kg / 3.5lbs.

PART NO.	SIZE (INCH)	DESCRIPTION
TQFFP1	¾ - 1½"	Quick Fit Carbon Flange Pins
TFPSS1	¼ - ¾"	Stainless Steel Flange Pins

TAG MAGNETIC UNIVERSAL LEVEL

Designed primarily for pipe fitting applications. For all metal work the magnetic feature will offer an extra hand. Multi purpose tool offers 360 degree adjustable dial set level. Includes 2 x 20 pound magnets exerting 50 pound pull this will secure the unit in place on any steel, this enables hands free levelling. For aligning flanges the TAG Magnetic Universal Level is designed to be used with the Quick Flange Pins.

PART NO.	DESCRIPTION
TMUL	2 x 20lbs magnets

TAG CENTERING HEAD

The TAG Centering Head aids in the setting of centre lines, establishing angles and marks, for butt-ins, locating points inside pipes and tanks, laying out keyways and measuring declivity. Standard model is used on pipe ½" diameter and larger and has a 4" Y-type head fitted with an adjustable dial set level (DSL) and a manually operated hardened centering pin. The large centering head is ideal for pipe 1" diameter and up and has an 8" Y-type head and a DSL. A spring-loaded hardened centering pin eliminates the need for a hammer.

PART NO.	SIZE (INCH)
TCH	Standard ½" plus
TCHL	Extra Large 1" plus

TAG CONTOUR MARKER

Time saving tool designed to lay out pipe and structural joints. Precise layout of any angle, tees, wyes, crosses, elbows. Eliminated mathematical formulas/cut & try material waste. Consists of X-shape frame, calibrated protractor and a triple jointed marking arm and holder, the protractor is calibrated on both sides, one side in degrees and other side in rise-inches per foot.

PART NO.	SIZE (INCH)
TCM18	1.5 - 18"
TCM48	8 - 48"

TAG RADIUS MARKER

Models available in four sizes for scribing circles up to 80" in diameter 40" radius. Folding type design three smallest models will fit conveniently into a shirt pocket. Sturdy friction joints maintain rigidity and accuracy, and are made from lightweight, rustproof aluminium for long wear. Soapstone crayon is included. The scribe holder will accept round, square or flat soap stone crayon, pencil or steel point scribe.

PART NO.	RADIUS (INCH)
TRM8	0 - 8"
TRM20	0 - 20"
TRM24	0 - 24"
TRM40	0 - 40"

TAG FLANGE SQUARE

Designed for the precise adjustment of flanges in tube/pipe construction.

PART NO.	SIZE (MM)
TFSQ300	300mm x 300mm / 30mm x 5mm
TFSQ400	400mm x 400mm / 30mm x 5mm
TFSQ500	500mm x 500mm / 30mm x 5mm

HANDY POINT PLUS TUNGSTEN GRINDER

The elite portable grinding machine for tungsten electrodes

The Handy Point Plus is a portable Tungsten grinder, that is both environmentally friendly and has the ability to grind repeatable quality points on Tungsten electrodes for TIG and plasma welding. The Handy Point Plus is equipped with an integrated, replaceable dust filter, protecting the operator and the environment against the potentially harmful dust produced during electrode grinding. Thanks to its unique electrode holder, the Handy Point Plus is able to grind electrodes as short as 15mm with a standard electrode clamp. Using the special electrode clamp, tungsten electrodes as short as 8mm can be ground. The use of the electrode holder also ensures a precise, centred and repeatable tip. The Handy Point Plus is equipped with an inspection cover enabling the operator to see the grinding operation.

How it works

The Handy Point Plus is easy to operate, set the required grinding angle, secure the electrode into the holder using the locking device. The electrode is now set so as to minimise the amount of grinding required (0.3mm removal).

The Handy Point Plus is equipped with an eccentric plate, which makes it possible to adjust the grinding position on the face of the wheel, tripling the life of the diamond wheel.

The Handy Point Plus is supplied in a case ready to go, electrode clamps for 1.6; 2.4 and 3.2 diameter tungsten's are included (other sizes are available).

The Handy Point Plus is CE marked and is manufactured to meet all EU directives.

- Integrated exhaustion with a replaceable dust filter
- Triple use of the diamond wheel
- Easy to use, combined electrode positioning and locking device
- Grinding electrode as short as 15mm
- Durable storage case and lightweight make the Handy Point Plus ideal for working on site

Specification

HANDY POINT PLUS	TUNGSTEN GRINDER
Part No.	HPPTG1: 110v
	HPPTG2: 220v
Motor	850w
RPM	28000
Weight	2.8kg / 6lbs

Adjustable grinding angle from 15 - 180°

Stand to fix to a bench

Precise adjustment of the stick-out

Eccentric plate triples the use of the diamond wheel

PRO POINT PLUS TUNGSTEN GRINDER

The ultimate in electrode grinding for optimal TIG Welding

The Pro Point Plus is a unique wet tungsten electrode grinding machine, and offers the most precise and environmentally friendly way of preparing Tungsten electrodes for TIG welding.

The Pro Point Plus is constructed with a unique disposable container which automatically collects all toxic dust particles, eliminating the need for any separate extraction systems. The container can then be safely disposed of in accordance with regulations.

A precise angle is paramount to producing the high quality of the weld seams and also increases the number of reignitions between grinding, thus improving productivity and prolonging the life of the electrode.

Using the Pro Point Plus, it is simple to produce the exact angle required. A unique digital angle display and special locking device allows the operator to position the electrode precisely, and the grinding is carried out in the correct longitudinal direction along the electrode.

Key Features

- 3 grinding positions on the grinding wheel, effectively tripling the grinding life of the wheel
- Longitudinal Grinding of electrodes for the best results
- Cold wet grinding combined with the diamond wheels' high grinding speed ensure that the tungsten electrode always has a polished and even surface
- Easy, safe disposal of hazardous grinding dust in the replaceable cartridge
- Digital angle setting for quick reference and repeatable accuracy
- Tungsten as short as 10mm can be ground ensuring minimal wastage and making the Pro Point Plus perfect for orbital welding applications
- No tools are needed for the easy removal of the waste container for its safe disposal
- Set up the grinder and re-produce the same electrode over and over

Holder can easily positioned to flatten tip at 90°

Digital angle readout

TECHNICAL SPECIFICATION	
Part No.	PPPTG1: 110v PPPTG2: 220v
Power Supply	230v / 110v 50 - 60Hz
Electrodes	1.0mm to 4.0mm*
RPM	10000
Grinding Speed	60m/sec
Diamond Wheel	100mm diameter
Min. Grinding Length	10mm
Angles	7.5° - 90° (15° - 180° Tip)
Cutting Length	10 - 175mm
Weight	12.8kg / 28lbs

* Larger sizes available upon request
